When Hosting Non-Babe Ruth Tournaments, you are taking on extra exposure. For example, when someone gets injured, the hosting league is the one most likely to be sued. It is possible that not all teams coming to play in your tournament are insured. For this reason, you need to take extra precautions as follows:

- 1) All Non-Babe Ruth teams should provide you with a certificate of insurance showing liability coverage of at least \$1,000,000 that names your league and Babe Ruth League, Inc. as additional insured.
- 2) A premium will be due for each team that cannot provide you with additional insured status as required above. A suggestion would be to tack that premium onto the registration fee of the team who cannot provide this additional insured status. ***PLEASE NOTE: This premium does not give the Non-Babe Ruth team insurance coverage. It covers the additional exposure your league is taking on by not being named as additional insured.*** See premium breakout below.
